Value Creation Map

Based on “SHIP” Philosophy,
we will contribute to solving social issues
as partners to all stakeholders

Group Mission:

Creating environments for medical professionals

Values the Group provides

Contribution to Regional Healthcare

Total Pack Produce Business

Supporting the development of medical institutions, including regional core hospitals and promoting Community-based Integrated Care System to strengthen regional healthcare.

Aiming to Create a Well-Being Society

Efficiency in Medical Settings

Medical Supply Business

Contributing to the creation of an environment where medical professionals can focus on healthcare by improving efficiency in medical settings and building a sustainable healthcare system.

High-Quality Care and Food Provision Services

Lifecare Business & Food Business

Developing care facilities utilizing hospital-building know-how in cooperation with medical institutions. Also providing meal services to medical institutions and others.

Community-Based Pharmacy Development

Dispensing Pharmacy Business

Developing pharmacies rooted in the community and promoting regional comprehensive care systems by closely collaborating with medical institutions and other professions.

Best Healthcare for Everyone

Overseas Business

Utilizing various know-how accumulated in the existing five businesses to expand healthcare services domestically and internationally, ensuring that everyone can receive the best healthcare by maximizing the Group's knowledge.
